March 23, 2020

Dear Valued Distributor,

I want to confirm for all of our essential partners that all Fowler facilities will remain open for the foreseeable future.

In just a single week, COVID-19 has dramatically changed the way we work and spend our leisure time. Fowler is keenly focused on the health and safety of our associates, and with this in mind, our facilities are closed to outside visitors, travel is restricted and, 75% of our team has been working from home for over a week. Plans put in place a few weeks ago have allowed this to happen without disruption to our customers.

We understand that many of the industries that we support provide essential services to the community, including health, energy, critical manufacturing, defense, and transportation, to name a few. At this point, we plan to remain open to support the essential services you are providing. If you have specific needs, please reach out as soon as possible so that we can align our supply chain to support you.

Sincerely,

Patrick Madigan
President
