

## California Proposition 65 Warning

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

Proposition 65 became law in November 1986, when California voters approved it by a 63-37 percent margin. The official name of Proposition 65 is the Safe Drinking Water and Toxic Enforcement Act of 1986.

Fred V. Fowler Co., Inc. has elected to provide a warning based on our knowledge about the presence of one or more chemicals listed without evaluating the toxicity level of exposure. Products sold by Fowler High Precision may contain chemicals listed on the proposition 65 harmful chemical list that are within the acceptable toxicity levels. However, as a precaution, Fred V. Fowler Co., Inc. has decided to place the Proposition 65 Warning notification on all Fowler products. Fowler products manufactured after the August 30, 2018 deadline will be labeled.

*High Precision  
Measuring  
Instruments*

*Bore Gaging*

*Height Gaging*

*Horizontal  
Measurement*

*Precision  
Leveling*

*Precision Tools*

*zCAT CMM*

 **WARNING:**

This product can potentially expose you to chemicals including Chromium, Lead and Nickel which are known to the State of California to cause cancer, birth defects or other reproductive harm.
